Dear Sir/Madam:

The National Institute for Occupational Safety and Health (NIOSH) has reviewed your request accepted June 13, 2018. This request was for approval of the model SQ10G3M as qualifying filtering-facepiece respirator for protection against particulates as N95 filter efficiency level. The complete respirator configuration is (solid or assembly mark), fill name SQ10G3M(c,s)0, revision A, dated Sept 5, 2017.

All associated testing (including sodium chloride (NaCl) particulate testing, for the model SQ10G3M respirator was successfully performed under TC-21807, and was approved at the conclusion of that project.

This request is granted. Approvals are granted only for documentation written in the English language. It is the manufacturer's responsibility to correctly translate materials critical to be produced in languages other than English. Approval number TC-84A-8149 has been assigned. This respirator is approved for protection against particulates at N95 filter efficiency level.

The final respirator approval label is included as an attachment to this letter. The abbreviated label has been accepted as submitted. The cautions and limitations which apply to this approval are on the approval label. Only those countries affected by this request, or where new approval numbers are assigned, apply to this approval action. Production approval labels cannot include information on unapproved configurations.

The approved assembly consists of the parts as listed on the approval label and the assembly matrix. Parts are to be marked with the numbers indicated on the approval label in a legible and permanent manner (marking cannot be removed without evidence of it previous presence.

This certificate of approval is not an endorsement of the respirator by NIOSH, and such endorsement shall not be stated or implied in advertisement or other publicity. However, you may publicize the fact that this respirator has met the requirements of Title 42, *Code of Federal Regulations*, Part 84 (42 CFR 84).

Personal Protective Equipment EUAs

Personal Protective Equipment (/medical-devices/general-hospital-devices-and-supplies/personal-protective-equipment-infection-control) refers to protective clothing, helmets, gloves, face shields, goggles, respirators or other equipment designed to protect the wearer from injury or the spread of infection or illness.

To help address concerns about availability during the COVID-19 pandemic, the FDA has issued EUAs for certain PPE products including face shields, other barriers, and respiratory protective devices such as respirators. Additionally, the FDA has issued recommendations and policies about PPE which can be found here: Recent Final Medical Device Guidance Documents (/medical-devices/guidance-documents-medical-devices-and-radiation-emitting-products/recent-final-medical-device-guidance-documents)

Templates for these EUA submissions are available to help facilitate the preparation, submission, and authorization of an EUA, including an Interactive Review Template For Non-IVD Products (/media/139066/download). Additionally, the FDA has posted a Surgical Masks EUA Template for Addition to Appendix A (/media/140896/download) of the Surgical Mask Umbrella EUA.
